SPARK WHITENING How It Works

No one likes having yellow teeth. It's embarrassing, and depending upon how frequently you drink coffee or wine, or smoke or eat candy - your teeth can reflect ALL of your bad habits. We created Spark Whitening to help people just like you transform your smile into something you can be proud of. Since many teeth whitening formulas out there promise the world but don't deliver, we consulted with the best and came up with the EXACT FORMULA USED BY DENTISTS. But the good news is, you don't have to spend the same hundreds of dollars you would with your dentist. So if you want dentist-office-quality results when you whiten your teeth, try Spark Whitening - the same formula used by dentists - for less.

**Actual Spark Whitening Users*

Whitening systems seemed to lighten teeth equally well regardless of whether or not an activation light source had been used.

These studies had an individual use only the whitening formula on one side of their mouth, while the whitening formula and light source was used on the other.

Scientists came to the conclusion that the teeth on both sides brightened equally well. These results were consistent with evaluations made one year after the whitening treatment had been performed as well.
